

FABIO DARCI DORNELES

FULL-STACK DEVELOPER

PHONE: 55-99210-9068 EMAIL: fabiodrneles@gmail.com GITHUB: github.com/fabiodrneles

SUMMARY

- Accumulated over 4 years of hands-on programming experience, specializing in stacks like ReactJs and NodeJs, leading to a deep proficiency in these technologies.
- Exhibited strong expertise in Next.js and Tailwind, with a comprehensive grasp of front-end development best practices, resulting in the creation of user-friendly and responsive web applications.
- Applied in-depth knowledge of web markup languages, including HTML5, CSS3, and JavaScript, to craft engaging and interactive user interfaces.

SKILLS

React.js (4+ years), Node.js (4+ years), HTML5, CSS3, and JavaScript (5+ years), Next.js (2+ years), Tailwind CSS (2+ years), Angular (3+ years), Express.js (3+ years), RESTful APIs (3+ years), Git (5+ years), PostgreSQL (4+ years), MySQL (4+ years), Java (4+ years), Spring Framework (2+ years), JUnit (3+ years), Docker (2+ years), Amazon Web Services (AWS) (2+ years), Azure (2+ years), C# (4+ years), .NET Framework (4+ years)

WORK EXPERIENCE

Full Stack Developer | freelancer | June 2019 - Present

Freelance Full Stack Developer with experience in projects of various sizes and sectors, using the most in-demand technologies in the market.

- Led the development of end-to-end solutions using React.js, Node.js, and various web technologies, resulting in a 30% increase in application performance.
- Collaborated with cross-functional teams to design and implement high-performance systems, delivering projects on time and within budget.
- Successfully integrated RESTful APIs into front-end applications, optimizing communication between the front-end and back-end.
- Managed Git version control for streamlined collaboration and efficient codebase maintenance.
- Continuously improved code quality and ensured robust troubleshooting, resulting in a 40% reduction in bug-related incidents.

Application Developer Intern | IBM | May 2022 - August 2022

Application Developer at IBM with experience in projects of various sizes and sectors, utilizing the most in-demand technologies in the market.

- Contributed to the development and maintenance of enterprise applications using Java and web technologies, acquiring valuable experience in software engineering.
- Assisted in the design and implementation of RESTful web services, resulting in improved data exchange efficiency and enhanced application functionality.
- Collaborated with a diverse team of developers to identify and troubleshoot application issues, ensuring seamless performance.
- Gained hands-on experience with version control systems, such as Git, for efficient code management and collaboration.

Application Developer | IBM | August 2022 - August 2023

Application Developer at IBM with experience in projects of various sizes and sectors, utilizing the most in-demand technologies in the market.

- Contributed to the development of applications, leveraging Java, COBOL, and Mainframe technologies, DB2, CICS to enhance system performance, maintain robust security standards, and bridge the gap between legacy and modern systems.
- Actively participated in Agile development teams, contributing innovative solutions to complex challenges and ensuring efficient project delivery while addressing the specific needs of Mainframe applications.
- Continuously improved application reliability, reducing incidents and enhancing overall system stability, spanning from Mainframe to modern architectures.
- Played a crucial role in codebase management, using Git for version control, leading to streamlined collaboration, and improved code quality across diverse technology stacks.
